## About Me

I'm a passionate software engineering student with experience in full-stack development and UI/UX design. I enjoy solving problems and creating intuitive web and mobile applications, always eager to learn and apply new technologies.

## Skills

- Languages: Java, C#, HTML, CSS, JavaScript, PHP, Kotlin
- Web Development: HTML5, CSS3, JavaScript, PHP
- Version Control: Git, GitHub
- UI/UX Design: Figma

## Education

Higher Diploma in Computing and Software Engineering 2023 - 2024

ICBT Campus, Sri Lanka

Awarded by Cardiff Metropolitan University

Currently pursuing a Higher Diploma in Computing and Software Engineering with a focus on core modules like Programming, Database Development, Web and Mobile Application Development, System Analysis, and Project Management. This program has equipped me with essential skills in modern computing and software practices.

## Experience

UI/UX Designer and Front-End Developer  
*Phira Dating App (Team Project)*

In the Phira dating app project, I served as the UI/UX Designer and Front-End Developer. I focused on creating an intuitive and engaging interface while implementing essential features like user profiles, account management, and search filters. The project aimed to provide a user-friendly platform for effective matchmaking.

Full-Stack Developer  
*The Gallery Café Website Project*

I worked as a Full-Stack Developer on the Gallery Café website, handling both front-end and back-end development. Using HTML, CSS, JavaScript, and PHP, I designed a responsive and user-friendly interface while implementing features like menu management and a reservation system, ensuring seamless functionality and an engaging user experience.

Full-Stack Developer  
*Furry Feast Mobile App*

As a Full-Stack Developer for the Furry Feast mobile app, I managed both the UI/UX design and back-end functionality. I developed features such as product listings, user authentication, and educational content pages. This project, built with Java and Kotlin, emphasized creating a smooth user experience and delivering valuable information to pet owners.
