## EDUCATION

### ICBT CAMPUS

- Undergraduate in Software Engineering

### NYSC

- Certificate in English

## SKILLS

- Teamwork
- Problem-solving

## LANGUAGES

- Java
- HTML
- CSS
- JavaScript
- C++
- Kotlin,
- XML

## PROFILE

Enthusiastic and dedicated Software Engineering undergraduate with a strong foundation in UI/UX design. Proficient in various programming languages and technologies, with a proven ability to create functional and visually appealing web and mobile applications. Adept at teamwork and problem-solving with a keen interest in delivering high-quality user experiences.

## WORK EXPERIENCE

### Key Projects

#### The Gallery Café

- Developed a visually engaging website, handling both UI/UX design and backend development, including database management for menu items and reservations, enhancing the café's online presence.

### Furry-Feast

- Led the design and development of a mobile app for a pet store, focusing on creating an intuitive and visually appealing user interface. The app simplifies the shopping experience and provides valuable educational content on pet nutrition, enhancing user engagement and supporting pet owners in making informed decisions.
